PROFILE

I have intentionally spent the last six years building the skills required to become an entrepreneur, across private equity consulting, business operations, growth strategy, and AI product development. I have seen firsthand how businesses are evaluated, built, and scaled, and I am now focused on putting that foundation to work building and growing a company from the inside.

EDUCATION

UNC Kenan-Flagler Business School

MBA Candidate, Class of 2027

Chapel Hill, North Carolina, United States

Concentrations: Strategy & Consulting, Entrepreneurship, Technology & Innovation

ENTREPRENEURIAL EXPERIENCE

Airbnb Owner & Operator (India)

2019-Present

Built and scaled a short-term rental business from the ground up, run alongside a full-time consulting career.

- ◆ Grew the business to approximately \$35,000 in annual revenue.
- ◆ Achieved returns more than 200% higher than traditional long-term rentals.
- ◆ Hosted 75+ guests from 8 countries.
- ◆ Led pricing strategy, customer acquisition, guest experience, and day-to-day operations.

Firsthand exposure to customer acquisition, operations, revenue management, and the realities of building a profitable business.

BUILDING WITH AI

MBA Student Consulting Project

Built an AI-powered market intelligence and screening MVP for a \$380M private equity-backed facilities maintenance platform, automating research and competitive intelligence workflows and turning weeks of manual analysis into an on-demand tool.

PRIVATE EQUITY CONSULTING

Grant Thornton

2021-2025

Advised global private equity and venture capital investors across 300+ deals and over \$2B in investment decisions, evaluating businesses across technology, healthcare, financial services, consumer, and industrial sectors.

Selected engagements

- ◆ Led diligence on a \$229M B2B SaaS company, identifying compliance and regulatory risks across North America, EMEA, and APAC that contributed to an 11% valuation renegotiation.
- ◆ Directed commercial and operational diligence for a \$98M FinTech platform, uncovering underwriting weaknesses and recommending improvements across seven key credit metrics.
- ◆ Evaluated a \$73M healthcare business, reviewing over 50,000 financial records and identifying approximately \$400K in financial irregularities, resulting in a 17% valuation adjustment.
- ◆ Conducted field investigations across 120+ branches of an affordable housing lender, surfacing operational and credit risks that influenced the investor's decision not to proceed.
- ◆ Worked directly with investors, founders, and management teams to assess scalability, market attractiveness, competitive positioning, and value creation opportunities.

A front-row seat to how investors evaluate markets, identify opportunities, and separate scalable businesses from the rest.
